핵심질문 4

문헌정보	연구유형	대상자 수	문헌 질 KCIG
In-vitro comparison of 2 cone-beam computed tomography systems and panoramic imaging for detecting simulated canine impaction-induced external root resorption in maxillary lateral incisors	Comparative Study	30	4
Comparative analysis of traditional radiographs and cone-beam computed tomography volumetric images in the diagnosis and treatment planning of maxillary impacted canines	Comparative Study	25	4
Effectiveness of impacted and supernumerary tooth diagnosis from traditional radiography versus cone beam computed tomography	Comparative Study	8	4
Comparison of two cone beam computed tomographic systems versus panoramic imaging for localization of impacted maxillary canines and detection of root resorption	Comparative Study	60	1
Comparison of two cone beam computed tomographic systems versus panoramic imaging for localization of impacted maxillary canines and detection of root resorption	Expert opinion	X	5
Localization of impacted maxillary canines and observation of adjacent incisor resorption with cone-beam computed tomography	Retrospective analysis	210	3
